(1) SCSE: Statement of Changes in Shareholders' Equity

# NOTE TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

PERIOD ENDING 30 JUNE 2020

RTBERA

# NOTE 1 - SIGNIFICANT EVENTS AND GENERAL INFORMATION DURING THE PERIOD

The condensed consolidated financial statements of the Robertet Group for the first half of 2020 include Robertet and its subsidiaries. Robertet is a Group entirely focused on the design, manufacture and marketing of aromatic products. Robertet is a company incorporated under French law and listed on the Paris Stock Exchange (Euronext compartment B), whose registered office is located at 37, avenue Sidi-Brahim, 06130 Grasse.

Robertet's condensed consolidated interim financial statements were approved by the Board of Directors on September 22, 2020.

As already described in the financial statements as at December 31, 2018 and 2019, the simplified merger of Charabot SA in Robertet SA was realized on July 31, 2020, with retroactive effect to January 1, 2020.

SIRIUS was fully consolidated for the first time following the acquisition of a 60.14% interest (capital and voting rights) in this entity for a purchase price of 1 500K€. Commitments for mutual sales and acquisitions between now and 2022/2023 are estimated at 4 million Euros, based on a projection of Gross Operating Income, which is the variable used to calculate this price complement.

This acquisition strengthens the Group's leadership position in Organic Essential Oils and floral waters, and reaffirms the Group's desire to remain the independent and key player in Natural Aromatic Products. This operation also consolidates the Group's sourcing through new integrated channels and is in line with the integration of SAPAD. This acquisition is also an opportunity to offer a turnkey product service for well-being.

Revenue and profits since the date of acquisition amount to 5,130 K€ and 277 K€ respectively.

This consolidation resulted in the recognition of a provisional goodwill of EUR 4.8 million.

Group's scope of consolidation, Robertet Africa (78%-owned) and Robertet Indonesia (creation). These two entities, also fully consolidated, did not generate any goodwill in the interim financial statements.

# NOTE 2 - SUMMARY OF MAIN ACCOUNTING RULES AND METHODS

### Basis for the preparation of the financial statements

The consolidated financial statements of the Robertet Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted in the European Union.

The condensed consolidated financial statements for the six months ended June 30, 2020 have been prepared in accordance with the provisions of IAS 34 on interim financial reporting. In accordance with this standard, only a selection of explanatory notes is included in these condensed financial statements. These notes may be completed by reading the consolidated financial statements for the year ended December 31, 2019. The accounting policies are identical to those applied for the consolidated financial statements for the year ended December 31, 2019.

The Group has not anticipated any standards and interpretations whose application is not mandatory in 2020.

For the presentation of the condensed interim consolidated financial statements for the six months ended June 30, 2020, the Group has applied all standards and interpretations that have entered into force at European level and are applicable to fiscal years beginning on or after January 1, 2020.

These new standards and interpretations are as follows :

# Standards and interpretations mandatorily applicable as of January 1, 2020

# • Amendment to IAS 1 and IAS 8. Definition of the term "significant"

This amendment specifies that information is significant if its omission, misstatement or obscuration can reasonably be expected to influence the decisions of the principal users of the financial statements.

# • IFRS 3 amendment. Definition of an activity

This amendment clarifies the definition of an activity by proposing an analysis in two stages, and by aiming to limit the diversity of practices relating to the notion of activity.

# • Amendment of IFRS standards to update references to the conceptual framework

This alignment with the new conceptual framework published in 2018 concerns the following standards and interpretations: IFRS 2, IFRS 3, IFRS 6, IFRS 14, IAS 1, IAS 8, IAS 34, IAS 37, IAS 38, IFRIC 12, IFRIC 19, IFRIC 20, IFRIC 22 and SIC 32.

> These new texts had no impact on the Group's financial statements.

# Standards and interpretations applicable in advance as of January 1, 2020

At the closing date of these consolidated financial statements, the standards and interpretations listed below were issued respectively by the IASB and IFRS IC but not yet adopted by the European Union.

- Amendment to IAS 1. Classification of liabilities as current and non-current liabilities
- Amendment to IFRS 16. Rental concessions related to Covid-19
- Amendments to the norms IFRS 3, IAS 16 and IAS 37. Update of references to the conceptual framework

The Group has chosen not to apply these standards and interpretations early but has begun to analyze the consequences of their application. The Group will apply these standards in its financial statements as soon as they are adopted by the European Union.

# Use of estimates

The preparation of the financial statements requires Robertet to make estimates and assumptions that may have an impact on the amounts of assets and liabilities, as well as income and expenses. The estimates and underlying assumptions are based on past experience and other factors considered reasonable under the circumstances. They thus serve as a basis to exercise judgment in determining the carrying amounts of assets and liabilities, which cannot be obtained directly from other sources. The amounts appearing in Robertet's future financial statements may differ from the currently estimated values. These estimates and assumptions are reviewed on an ongoing basis.

The Group's income tax expense has been calculated on the basis of the estimated effective tax rate for the period. This rate, determined using the tax rates applicable in the Group's tax entities, is applied to pre-tax income.

# **Consolidation rules**

Significant subsidiaries that are exclusively controlled, directly or indirectly, are fully consolidated. Companies over which Robertet exercises joint control or significant influence are consolidated using the equity method. All these companies have been consolidated on the basis of financial statements for the period ended June 30, 2020.

All intra-group balances and transactions are eliminated on consolidation.

The financial statements of foreign companies whose functional currency is not the euro are translated using the following principles :

- balance sheet items are translated at the rates prevailing at the end of the period. The exchange differential resulting from the application of a different exchange rate to opening shareholders' equity is recorded in shareholders' equity in the consolidated balance sheet;
- income statements are translated at the average rate for the period. The exchange differential resulting from the application of an exchange rate different from the balance sheet rate is recorded under shareholders' equity in the consolidated balance sheet.

The risks identified within the Robertet Group are identical to those described in the consolidated financial statements for the year ended December 31, 2019.

# Scope

The condensed interim financial statements for the six months ended June 30, 2020 include the financial statements of companies over which the Robertet Group has direct or indirect de jure or de facto control.

# Description of the main risks and uncertainties for the remaining six months

The risk factors are of the same nature as those described in the 2019 Annual Report and do not present any significant changes during the first half of 2020.

# Main transactions with related parties

Information on related parties is detailed in note 18, which presents the main changes in the Group's financial position semester.

# Impact of the health crisis on the financial statements

On January 30, 2020, the World Health Organization declared a state of public health emergency of international concern following the spread of the Covid-19 virus and designated it a pandemic on March 11, 2020.

In response to this health crisis, governments around the world have been forced to adopt restrictive social and economic measures to limit the spread of the virus.

These measures taken by all countries have had a significant impact on the global economy. In this context, the Robertet Group has assessed the impact of the uncertainties created by the pandemic.

As of June 30, 2020, these uncertainties have not led to a significant change in the estimates and assumptions used by the Group. Furthermore, the Robertet Group will continue to update these estimates and assumptions as the situation evolves.

# Effect of the pandemic on the valuation of goodwill and intangible assets

In accordance with IAS 36, the Group performs impairment tests on the assets attached to each of its CGUs once a year, regardless of the existence of any indication of impairment. The most recent impairment tests were performed as of December 31, 2019 (see note 2 to the consolidated financial statements for the year ended December 31, 2019).

As part of the preparation of its consolidated financial statements at June 30, 2020, the Robertet Group reviewed quantitative and qualitative indicators and identified indications of impairment of certain assets directly or indirectly related to the Covid-19 pandemic.

Although the impairment tests performed in 2019 on the CGUs concerned by these indications of impairment had recoverable amounts significantly higher than their carrying amounts, the Group has nevertheless updated these tests by revising the business plans of each of the CGUs.

These tests did not lead the Group to recognize any impairment in the consolidated financial statements as of June 30, 2020. The results of the tests of the main CGUs concerned are presented in note 3.

### Impact of the pandemic on income

For the Group as a whole, the Covid-19 pandemic did not result in the termination or substantial modification of distribution contracts.

### Effect of the pandemic on inventories

To cope with the supply risks related to the Covid-19 pandemic crisis, the Group's production sites were able to maintain their level of activity thanks to the implementation of specific sanitary measures. In the event of a drop in production levels, the Group does not take into account the effects of under-absorption in the evaluation of the production cost of inventories, in accordance with IAS 2.

# Effect of the pandemic on trade receivable

At June 30, 2020, the Robertet Group analyzed indicators of impairment of trade receivables, such as the breakdown of gross receivables according to their age and the amount of doubtful receivables. The Group has identified elements that may justify a significant increase in credit risk (see note 7)

# Impact of the pandemic on cash flow

The Covid-19 pandemic did not have a negative impact on the liquidity of the Robertet Group.

# Effect of the pandemic on the presentation of the income statement

The effects of the Covid-19 pandemic are presented in the notes to the income statement in accordance with the nature of the corresponding income and expenses. No item related to the health crisis has been classified in other non-current income and expenses.

# NOTE 3 - GOODWILL in thousands of euros

#### Goodwill on the assets breaks down as follows

	30-June-20	31-Dec-19
Flavor Division:		
Gross Value	7 879	7 879
Impairment		
Net Value	7 879	7 879
Fragrance Division		
Gross Value	17 808	17 808
Impairment		
Net Value	17 808	17 808
Raw Materials Division :		
Gross Value	6 741	1 934
Impairment		
Net Value	6 741	1 934

Total Net Value	32 428	27 621

### The change in net values can be analyzed as follows :

	30-June-20	31-Dec-19
Net carrying amount at opening	27 621	27 621
Acquisitions (1)	4 807	
Total	32 428	27 621

(1) Goodwill relating to the acquisition of SIRIUS, which was fully consolidated in the first half of the year 2020. This goodwill is allocated to the raw materials CGU related to the company's business. No goodwill has been identified to date.

Goodwill has been calculated as follows (in thousands of euros) :

Overall estimate of the purchase price	5 509
Shareholders' equity at the date at the date of acquisition	702
Goodvill	4 807

Goodwill is allocated to Cash Generating Units (CGUs) based on the activity to which it relates. The CGUs defined correspond to the Flavor, Fragrance and Raw Materials divisions.

There are no indications of impairment for certain significant assets.

The COVID-19 pandemic had a relatively negative impact on revenue growth in the first half of the year, considered by Group Management as an indication of impairment in the Raw Materials and Perfumes divisions.

The value of these two CGUs was therefore tested at June 30, 2020.

This test was determined using 5-year projections of cash flows generated by the sales of each division. Beyond these 5 years, a terminal value has been determined based on a growth rate of 2.5% for the Raw Materials Division and 1.5% for the Perfumes Division. These cash flows are discounted net of tax at a rate of 8.0%. This rate is after tax.

The Group is currently working on calculating different discount rates for each CGU, with the objective of implementing them as part of the impairment tests as of December 31, 2020. The results of the tests confirm that there is no impairment of the assets allocated to these CGUs.

# Sensitivity test

The Group performs sensitivity tests on the main assumptions. The main results of these tests are

presented below:

A perpetual growth rate of zero would not result in any depreciation.

The level of the discount rate (key assumption) for which the recoverable amount is equal to the carrying amount (after taking into account all the effects of this change on the other variables used) is:

•	Fragrance	Division:		10.85%
---	-----------	-----------	--	--------

• Raw Materials Division: 13.70%

The change in the "EBITDA/Sales" ratio for which the recoverable amount is equal to the carrying amount (after taking into account all the effects resulting from this change on the other variables used) is:

<ul> <li>Fragrance Division:</li> </ul>	2,7 points,
<ul> <li>Raw Materials Division:</li> </ul>	6,4 points.

# NOTE 18 - INFORMATION REGARDING RELATED PARTIES

Transactions with affiliated companies are solely purchases and sales of raw materials between the parent company and these companies. The parent company's purchases from these affiliated companies amounted to 1,976 K€ for the first half of 2020 (no sales for the half year).

Concerning the compensation of executive corporate officers, in order to take into account the situation related to Covid 19, it has been decided that the variable compensation of Directors paid in 2020, which initially increased due to their calculation mechanisms, will be reduced by 25%.

In addition, a bonus share plan has been set up as follows, authorized by the Board of Directors on June 5, 2020:

0		U	,		
	Date of plan	Number of shares	Conditions of acquisition	Date of acquisition	Date of availability
Philippe MAUBERT	05/06/2020	450	gratuity	05/06/2021	05/06/2023

# BUSINESS REPORT FOR THE FIRST HALF OF 2020

PERIOD ENDING 30 JUNE 2020

# BUSINESS REPORT FOR THE FIRST HALF-YEAR OF 2020

The year 2020 had begun with a relatively positive outlook for all the company's activities.

Thus, as of March 31, 2020, consolidated sales were up 3%, and Flavors in particular were up 7%.

At the end of June, this figure, although generally sustained in the context, had declined slightly, down 2.6% (4.3% at constant scope of consolidation and exchange rates).

This decline was mainly due to the impact of the Covid health crisis on economic activity in general.

This trend has been consistent and reflects the activity of end consumers.

Robertet has managed to have sustained economic activity during confinement thanks to the reliability of staff its personnel in France and abroad.

This is also due to the fact that we operate in a priority business sector (health, sanitary and human food) and that the Group has been able to take the organizational measures necessary for the operation of its plants and supply chain in strict compliance with regulations that are constantly changing and require constant adjustments.

This policy has been pursued during the de-confinement and in the current phase of heightened vigilance.

By operating division, at constant exchange rates and scope of consolidation, revenue for the half year breaks down as follows: Natural Raw Materials down 8.2%, Perfumes down 5.4%, but Flavors remained stable.

This breakdown is largely attributable to lower sales in the high-end Perfumes market and also to the sharp decline in consumer beverage sales.

By geographic region, sales in France decreased by 7.5% and in the United States by 2.6% in dollars. A sharp decline was recorded in Spain, England and Brazil.

Sales, on the other hand, were sustained in Southeast Asia through the recent subsidiary in Singapore and also in China and Japan.

The Health and Beauty Division's activity is also very positive as part of its steadily growing business plan.

In addition, the merger of Charabot into Robertet was effective, effective January 1, 2020, which was beneficial to the Group's cost structure materializing a number of synergies in the operating account.

It should be noted that the gross margin on products improved significantly during the first half of the year and savings in management expenses were significant.

This allowed the Group's consolidated profit to increase significantly, even though it suffered a drop in revenues.

It amounts to 30.1 million for the first six months, an increase of 2.3% which is evenly spread over most of the Group's entities.

The Group's PNL is therefore fairly homogeneous. Notably, EBITDA amounts to 56.2 million euros, i.e. nearly 20% of revenues and net profit to 11% of the same figure.

For the year as a whole, it should be taken into account that this result contains certain seasonal elements.

Caution should therefore be exercised in extrapolating these results for the full year 2020, given the persistence of strong uncertainties about the environment in which the Group will operate.

Consequently, excluding exceptional items, a stable annual result would already be a good performance.

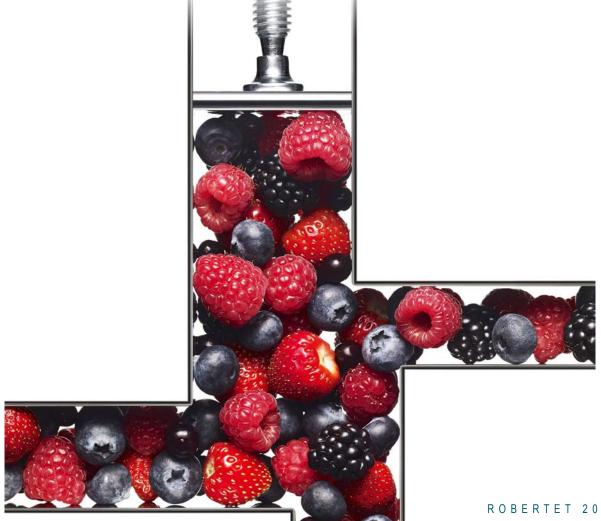

Another element of its strategy is that the group has regularly built a solid structure with a remarkable financial equilibrium.

This is particularly valuable in more difficult periods, having long-term goals. This debt-free balance sheet is primarily intended as an instrument for seeking growth within the framework of reasonable management.

The Group continued its search for growth by continuing to develop its simple and clear concept of New Products/New Markets and by taking maximum advantage of synergies between the Divisions and the main zones (One Robertet policy).

This goes hand in hand with the search for external growth opportunities in its core business that can strengthen or complete its range of products, always with the strong predominance of Natural products, in which the Group continues to invest, with Bio or Organic as a top priority.

An active search remains for assets that can integrate the Health and Beauty Division into a very targeted and reasonable framework.

# STATUTORY AUDITORS' REPORT ON THE HALF-YEAR FINANCIAL INFORMATION

# Period from 1 January 2020 to 30 June 2020

To the shareholders of the company Robertet,

In execution of the mission entrusted to us by the general meeting and in application of article L. 451-1-2 III of the French Monetary and Financial Code, we have proceeded with :

- the review of the accompanying condensed interim consolidated financial statements of the company for the period from January 1, 2020 to June 30, 2020 ;
- verification of the information given in the half-yearly activity report.

These condensed interim consolidated financial statements were prepared under the responsibility of the Board of Directors on September 22, 2020 on the basis of the information available at that date in a changing context of the crisis related to Covid-19 and difficulties in understanding its impact and future prospects. It is our responsibility, on the basis of our review, to express our conclusion on these financial statements.

### • CONCLUSION REGARDING THE FINANCIAL STATEMENTS

We conducted our review in accordance with professional standards applicable in France. A review of interim financial information consists principally of making inquiries of persons responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit. The scope of the audit is the same as that required for an audit performed in accordance with the professional standards applicable in France. Consequently, the assurance that the financial statements, taken as a whole, are free from material misstatement obtained through a limited review is a moderate assurance, less than that obtained during a full audit.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed half-year consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 - standard of the IFRSs as adopted by the European Union applicable to interim financial reporting.

### • SPECIFIC VERIFICATION

We have also verified the information given in the interim management report dated September 22, 2020 containing notes to the condensed interim consolidated financial statements subject to our review. We have no matters to report as to its fair presentation and consistency with the condensed half-year consolidated financial statements.

Lyon and Marseille, September 29, 2020. The Statutory Auditors
